Notes:

- 1) As of Jan 31, 2024 all green shaded type 56 SKS with previously seen date codes listed are eligible as C&R firearms as defined by BATF under the 50 years or older rule provided they are in their original military configuration.
- 2) Blank cells surrounded by a blue dashed box are thought likely to exist but have not yet been observed in the wild and recorded in the <https://sks-files.com/index.php?topic=393.0> database.
- 3) All firearms must conform to the determinations of BATF to be eligible as C&R. To be recognized as a curio or relic, firearms must fall within one of the following categories:

a) Firearms manufactured **at least 50 years prior the current date**, but not including replicas thereof;

b) Firearms certified by the curator of a municipal, state, or federal museum which exhibits firearms to be curios or relics of museum interest; and

c) Firearms which derive a substantial part of their monetary value from the fact that they are novel, rare, or bizarre or from the fact of their association with some historical figure, period, or event.

ATF has recognized only **complete, assembled firearms** as curios or relics. Frames or receivers of curios or relics are not generally recognized as curios or relics. Additionally, ATF's classification of surplus military firearms as curios or relics has extended **only to those firearms in their original military configuration**.
